INDEX

Volume 10, September 1980—May 1981

Journal of College Science Teaching

Author Index

Ahl, Alwynelle S., Helen B. Hiscoe, and Theodore Lopushinsky. *Usefulness of Student-Controlled Videotapes in Lecture Teaching.* February: 234. (How We Do It)

Aldridge, Bill G. *Don't Give Up the Ship.* November: 80. (Editorial) *Science and Engineering Education in the United States: An Analysis of the NSF-Department of Education Report.* May: 377. (NLV)

Anderson, J. A., D. R. Bowen, J. A. Juskevice, B. Ortiz de Montellano, and J. R. Woodyard. *Home Energy Experiments in an Adult General Education Program.* March: 297. (How We Do It)

Arons, Arnold B. *Using the Substance of Science to the Purpose of Liberal Learning.* November: 81.

Bartholomew, Rolland B., and Robert E. Boyer. *ESTD: A Program That Helps Earth Science Teachers.* January: 174. (How We Do It)

Becker, Ernest I. *A Touch of Relevant Chemistry.* March: 305. (How We Do It)

Benefield, Leon W., Jr., and Kenneth S. Ricker. *Teaching Biology to Visually Handicapped Students.* May: 355. (How We Do It)

Blaustein, Ernest H., Contributing Editor, *Books.* September: 56; November: 115; January: 188; February: 249; March: 317; May: 386.

Bowen, D. R., J. A. Anderson, J. A. Juskevice, B. Ortiz de Montellano, and J. R. Woodyard. *Home Energy Experiments in an Adult General Education Program.* March: 297. (How We Do It)

Bowman, Barbara L., and William M. Langley. *Portable Audio-Tutorial vs. Lectures in Presentation of Ecological Concepts.* February: 236. (How We Do It)

Boyer, Robert E., and Rolland B. Bartholomew. *ESTD: A Program That Helps Earth Science Teachers.* January: 174. (How We Do It)

Branscomb, Lewis M. *Challenges to College Teaching in Science.* March: 279. (Editorial)

Brillhart, L. V., and M. B. Debs. *Teaching Writing—A Scientist's Responsibility.* March: 303. (How We Do It)

Brindle, Ian D., Jack M. Miller, and Mary F. Richardson. *A Variable-Height Wheelchair.* May: 368. (How We Do It)

Brovey, Daniel J. *Science Among Ordinary Citizens.* November: 88.

Brush, Stephen F. *History of Science: Rebuilding the Bridges.* September: 13. (Editorial)

Butcher, Janice, Eugene J. Volker, and Charles Hickok. *Use of Examination Topics in Organic Chemistry.* November: 102. (How We Do It)

Cain, B. Edward. *Teaching Chemistry to the Hearing Impaired.* May: 364. (How We Do It)

Caplan, Arnold I. *Embryological Development: Evolutionary History, Genetic Bias, and Cellular Environment Control the Flow of Developmental Units.* Part I, February: 226; Part II, March: 289.

Carras, John, and John Webb. *A Strategy for Teaching Physical Science to "Older" Students.* May: 370. (How We Do It)

Clement, John J., and Norman H. Fredette. *Student Misconceptions of an Electric Circuit: What Do They Mean?* March: 280.

Collea, Francis P., and Susan G. Nummedal. *Development of Reasoning in Science (DORIS): A Course in Abstract Thinking.* November: 100. (How We Do It)

Cowie, Lillian C., David P. Maloney, and Frank A. James. *An Activity-Centered Interdisciplinary Science Course.* January: 166. (How We Do It)

Davis, William E., and Peyton E. Richter. *Integrating Science and Humanities—A Modular Approach.* January: 176. (How We Do It)

Debs, M. B., and L. V. Brillhart. *Teaching Writing—A Scientist's Responsibility.* March: 303. (How We Do It)

de Montellano, B. Ortiz, J. A. Anderson, D. R. Bowen, J. A. Juskevice, and J. R. Woodyard. *Home Energy Experiments in an Adult General Education Program.* March: 297. (How We Do It)

Dolphin, Warren D. *Designing for Individual Differences in Large Biology Classes.* November: 105. (How We Do It)

Dott, R. H., Jr. *A Historical Approach for Teaching Introductory Geology.* September: 21.

Drell, Sidney I. *Quarks, Unification, and Beyond.* May 347.

Druger, Marvin. *Some Thoughts on College Teaching.* January: 182. (Point of View)

Dubowsky, Nathan, and Elliott M. Hartman, Jr. *An Interdisciplinary Approach to Teaching the Origins of Life.* March: 308. (How We Do It)

Ebetino, Frank J., Richard W. Olsen, and Judith A. Hoyt. *Displaying Instructional Visuals in Science Laboratories.* January: 179. (How We Do It)

Enger, Rolf C. *The USAF Academy Basic Physics Exam File.* February: 240. (How We Do It)

Fawley, J. Philip. *Speleology: An Approach to Interdisciplinary Lab Science.* January: 164. (How We Do It)

Fenner, Peter, *Society for College Science Teachers.* May: 380.

Fredette, Norman H., and John J. Clement. *Student Misconceptions of an Electric Circuit: What Do They Mean?* March: 280.

Finocchiaro, Maurice A., Editor. *A Symposium on the Use of the History of Science in the Science Curriculum.* September: 14.

Foley, Arlene F. *The Physically Handicapped Student in Biology.* May: 360. (How We Do It)

Frankel, Saundra, and Jacqueline LeBlanc. *Continuing Education Instrumentation Training in Clinical Chemistry.* September: 41 (How We Do It)

Gale, George. *I Ain't A-gonna Dry Lab No More.* May: 342.

Giacosie, Robert V., and G. Cleve Turner. *The Statewide Energy Consortium: A California Concept.* February: 238. (How We Do It)

Gibas, Murray A. *Reactions of Older Students to an Introductory Chemistry Course.* September: 43. (How We Do It)

Goldman, David T. *SI: Prognosis for the Future.* February: 222.

Gross, Walter E. *The History of the Physical Sciences in the Two-Year College Curriculum.* September: 19.

Ham, Russell. *Chemistry for the Liberal Arts Student: An Ostrich in Danger of Extinction?* January: 178. (How We Do It)

Hartman, Elliott M., Jr., and Nathan Dubowsky. *An Interdisciplinary Approach to Teaching the Origins of Life.* March: 308. (How We Do It)

Hedeen, Stanley E. *Zoos Are Classrooms.* February: 243. (How We Do It)

Herron, J. Dudley. *Can We Make Science Sensible?* January: 151 (Editorial)

Hickok, Charles, Eugene J. Volker, and Janice Butcher. *Use of Examination Topics in Organic Chemistry.* November: 102. (How We Do It)

Hiscoe, Helen B., Alwynelle S. Ahl, and Theodore Lopushinsky. *Usefulness of Student-Controlled Videotapes in Lecture Teaching.* February: 234 (How We Do It)

Holman, Charles. *Seat-of-the-Pants Statistics.* May: 372. (How We Do It)

Hoyt, Judith A., Richard W. Olsen, and Frank J. Ebetino. *Displaying Instructional Visuals in Science Laboratories.* January: 179. (How We Do It)

Hudson, H. T. *Managing Student Study Time.* January: 168. (How We Do It)

Hufstedler, Shirley M., and Donald N. Langenberg. *Science and Technology Education for All Americans. National & Legislative View.* February: 245.

Hunter, Norman W. *The Use of Cassette Tapes in Freshman Chemistry.* September: 39. (How We Do It)

James, Frank A., David P. Maloney, and Lillian C. Cowie. *An Activity-Centered Interdisciplinary Science Course.* January: 166. (How We Do It)

Juskevice, J. A., J. A. Anderson, D. R. Bowen, B. Ortiz de Montellano, and J. R. Woodyard. *Home Energy Experiments in an Adult General Education Program.* March: 297. (How We Do It)

Kauffman, George B., Contributing Editor, *Abstracts.* September: 62; November: 122; January: 186; February: 252; March: 320; May: 388.

Kauffman, George B. *History in the Chemistry Curriculum: Pros and Cons.* September: 23.

Laetsch, Watson M., and Mary S. Manteuffel. *Problem Formulation in Undergraduate Biology Student Investigations.* January: 160.

Langenberg, Donald N., and Shirley M. Hufstedler. *Science and Technology Education for All Americans. National & Legislative View.* February: 245.

Langley, William M., and Barbara L. Bowman. *Portable Audio-Tutorial vs. Lectures in Presentation of Ecological Concepts.* February: 236. (How We Do It)

Larson, Lee E. *Microcomputers—How Do You Get Started?* February: 231. (How We Do It)

LeBlanc, Jacqueline, and Saundra Frankel. *Continuing Education Instrumentation Training in Clinical Chemistry.* September: 41. (How We Do It)

Leitner, Alfred. *Stories of Discovery Stimulate the Physics Major—A Polemic, with Examples.* September: 28.

Lestingi, Francis S., Contributing Editor, *Instructional Media.* September: 59; November: 119; January: 192; February: 255; March: 313; May: 381.

Lichtman, Denis R. *Turn of the Coin.* February: 233. (How We Do It)

Lopushinsky, Theodore, Alwynelle S. Ahl, and Helen B. Hiscoe. *Usefulness of Student-Controlled Videotapes in Lecture Teaching.* February: 234. (How We Do It)

Maloney, David P., Frank A. James, and Lillian C. Cowie. *An Activity-Centered Interdisciplinary Science Course.* January: 166 (How We Do It)

Manteuffel, Mary S., and Watson M. Laetsch. *Problem Formulation in Undergraduate Biology Student Investigations.* January: 160.

McClary, Andrew. *Disease as a Way of Life: An Environmental Health Course.* November: 97. (How We Do It)

McCurdy, Donald W. *Report from the President.* September: 6. (About NSTA)

Report from the President: Board of Directors Meeting. November: 73. (About NSTA) *Testimony to the House Subcommittee on Science, Research, and Technology.* May: 374. (NLV)

Mecca, Stephen J., and Joseph E. Robertshaw. *Residential Energy Management Education.* September: 48. (How We Do It)

Melhado, L. Lee. *Technical Writing and the Chemical Literature: A Unified Approach.* March: 299. (How We Do It)

Miller, Jack M., Ian D. Brindle, and Mary F. Richardson. *A Variable-Height Wheelchair.* May: 368. (How We Do It)

Moore, John T. *The Mobility-Handicapped Student in the Science Laboratory.* May: 362. (How We Do It)

Neufeld, Helen H. *A Proposed Graduate Program for Preobsolescent College Science Faculty.* January: 158.

Nummedal, Susan G., and Francis P. Collea. *Development of Reasoning in Science (DORIS): A Course in Abstract Thinking.* November: 100. (How We Do It)

Olsen, Richard W., Frank J. Ebetino, and Judith A. Hoyt. *Displaying Instructional Visuals in Science Laboratories.* January: 179. (How We Do It)

Paldy, Lester G., Contributing Editor, *National and Legislative View. The National Science Foundation Budget: Fiscal Year 1980-81.* September: 51. *Analysis of NSF CAUSE Awards for Fiscal Year 1980.* January: 183. *Off Again, On Again: Science Faculty Professional Development at NSF.* March: 310.

Patterson, Elizabeth C. *History as an Introduction to Science.* September: 15.

Poitras, Adrian W., Contributing Editor, *Equipment and New Products.* September: 64; November: 126; January: 196; February: 258; March: 322; May: 392.

Rauckhorst, William H. *Research Exposure for Physically Handicapped Science Students: An Educational Program in a Research Setting.* May: 366. (How We Do It)

Redden, Martha R. *Assuring Access to Handicapped Students—Whose Responsibility?* May: 341. (Editorial)

Rhyne, Pamela, and Ann Veal. *A Safe Ten-Minute Test for Fat Digestion.* March: 307. (How We Do It)

Richardson, Mary F., Jack M. Miller, and Ian D. Brindle. *A Variable-Height Wheelchair.* May: 368. (How We Do It)

Richter, Peyton E., and William E. Davis. *Integrating Science and Humanities—A Modular Approach.* January: 176. (How We Do It)

Ricker, Kenneth S., and Leon W. Benefield, Jr. *Teaching Biology to Visually Handicapped Students.* May: 355. (How We Do It)

Ritz, William C. *A Future News Bulletin to Stimulate Student Debate on Population Stabilization Policies.* September: 34. (How We Do It)

Robertshaw, Joseph E., and Stephen J. Mecca. *Residential Energy Management Education .* September: 48. (How We Do It)

Rowe, Mary Budd, Contributing Editor, *Research on College Science Teaching. The Role of Undergraduate Colleges in Developing Attentiveness to Science and Technology.* September: 53; *The Changing Mission of Community Colleges: Impact on Science Courses and Instruction.* November: 113.

Saperstein, Alvin M. *Does Good Science Teaching Contradict the Requirements of Modern Technology?* November: 112. (Point of View)

Schlenker, Richard M. *Basic Physical Concepts: Do College Students Have Them? A Lowenfeldian Explanation to a Piagetian Dilemma.* November: 92.

Schwartz, A. Truman. *The Importance of Good Teaching: The Influence of Arthur Pardee on Wallace Carothers.* February: 218.

Smith, Wayne L. *Industrial Chemistry and the Liberal Arts Curriculum.* March: 294. (How We Do It)

Snyder, John A. *Career and Graduate School Counseling in a Science Department.* March: 286.

Sommer, Cynthia V. *Demonstration of Phagocytosis* In Vivo. September: 45. (How We Do It)

Stearner, S. Phyllis. *Overview of the National Science Foundation Project on the Handicapped in Science.* May: 352.

Strassenburg, A. A., Contributing Editor, *National and Legislative View. Women in Science.* November: 110.

Swanson, Gerald C., and Karen R. Swanson. *A Facile Method for the Determination of Significant Figures.* September: 48. (How We Do It)

Swanson, Karen R., and Gerald C. Swanson. *A Facile Method for the Determination of Significant Figures.* September: 48. (How We Do It)

Turner, G. Cleve, and Robert V. Giacosie. *The Statewide Energy Consortium: A California Concept.* February: 238. (How We Do It)

Veal, Ann, and Pamela Rhyne. *A Safe Ten-Minute Test for Fat Digestion.* March: 307. (How We Do It)

Volker, Eugene J., Janice Butcher, and Charles Hickok. *Use of Examination Topics in Organic Chemistry.* November: 102. (How We Do It)

Webb, John, and John Carras. *A Strategy for Teaching Physical Science to "Older" Students.* May: 370. (How We Do It)

Wilson, Jerry D. *The Science Olympiad: Promoting Interest in Science Education.* January: 171. (How We Do It)

Woodyard, J. R., J. A. Anderson, D. R. Bowen, J. A. Juskevice, and B. Ortiz de Montellano. *Home Energy Experiments in an Adult General Education Program.* March: 297. (How We Do It)

Wurst, Glen C. *SDS-Polacrylamide Gel Electrophoresis of Human Erythrocyte Membrane Proteins.* September: 37. (How We Do It)

Zeitler, W. R. *Titles of Interim Projects from Chautauqua-Type Short Courses.* November: 94.

Ziman, John, *Why Be A Scientist? The Pursuit of Knowledge, From Validity to Relevance.* January: 152.

Title Index

About NSTA. *Report from the President.* Donald W. McCurdy. September: 6; *Report from the President: Board of Directors Meeting.* Donald W. McCurdy. November: 73; February: 211; March: 270; May: 333.

Abstracts. (See Kauffman, George B.)

An Activity-Centered Interdisciplinary Science Course. David P. Maloney, Frank A. James, and Lillian C. Cowie. January: 166. (How We Do It)

Basic Physical Concepts: Do College Students Have Them? A Lowenfeldian Explanation to a Piagetian Dilemma. Richard M. Schlenker. November: 92.

Books. (See Blaustein, Ernest H.)

Career and Graduate School Counseling in a Science Department. John A. Snyder. March: 286.

Chemistry for the Liberal Arts Student: An Ostrich in Danger of Extinction? Russell Ham. January: 178. (How We Do It)

Continuing Education Instrumentation Training in Clinical Chemistry. Jacqueline LeBlanc and Saundra Frankel. September: 41. (How We Do It)

Demonstration of Phagocytosis In Vivo. Cynthia V. Sommer. September: 45. (How We Do It)

Designing for Individual Differences in Large Biology Classes. Warren D. Dolphin. November: 105. (How We Do It)

Development of Reasoning in Science (DORIS): A Course in Abstract Thinking. Francis P. Collea and Susan G. Nummedal. November: 100. (How We Do It)

Disease as a Way of Life: An Environmental Health Course. Andrew McClary. November: 97. (How We Do It)

Displaying Instructional Visuals in Science Laboratories. Richard W. Olsen, Frank J. Ebetino, and Judith A. Hoyt. January: 179. (How We Do It)

Editorial. (See Brush, Stephen G., September; Aldridge, Bill G., November; Herron, J. Dudley, January; Paldy, Lester G., February; Branscomb, Lewis M., March; Redden, Martha R., May.

Embryological Development: Evolutionary History, Genetic Bias, and Cellular Environment Control the Flow of Developmental Units. Arnold I. Caplan. Part I, February: 226. Part II. March: 289.

Equipment and New Products. (See Poitras, Adrian W.)

ESTD: A Program That Helps Earth Science Teachers. Rolland B. Bartholomew and Robert E. Boyer. January: 174. (How We Do It)

Facile Method for the Determination of Significant Figures, A. Karen R. Swanson and Gerald C. Swanson. September: 48. (How We Do It)

Future News Bulletin to Stimulate Student Debate on Population Stabilization Policies, A. William C. Ritz. September: 34 (How We Do It)

Historical Approach for Teaching Introductory Geology, A. R. H. Dott, Jr. September: 21.
